Secondary School Certificate

Work History

Webiwit

December 2024 - March 2025

Data Analyst Intern

New Delhi

 Analyzed user behavior metrics (e.g., bounce rate, session time) using Excel & Google Analytics.

Cleaned and processed raw data using Excel formulas (VLOOKUP, Pivot

Tables).Delivered weekly KPI reports to stakeholders, improving clarity of

ADM Edu

marketing trends.

July 2024 - September 2024

MIS Executive Intern

Remote

- Designed Excel dashboards for attendance and expense reports.
- Built automated trackers for employee data, streamlining HR reporting by 30%.

Projects

Amazon Sales Report - Excel

February 2025

https://github.com/Mann-crypt/Amazon-sales-report-Excel

- Cleaned raw Amazon product data using Excel (`VLOOKUP`, `SUMIFS`, PivotTables).
- Built an interactive dashboard to visualize customer trends and topselling items.
- Helped mock client simulate sales campaign decisions using insights.

HR Analytics Dashboard - Power BI

March 2025

https://github.com/Mann-crypt/HR-analytics-Dashboard

- Built a dashboard tracking attrition rates by gender, age, education, and job role.
- Used Power Query and DAX to model insights and suggest retention strategies.

Pizzahut Sales & Orders - MySQL

March 2025

 $@ \underline{https://github.com/Mann-crypt/Pizzahut-sales-mySQL}$

- Wrote complex SQL queries to find best-selling items and sales by region.
- Identified purchase patterns to improve inventory and marketing strategies.
- Optimized joins and aggregations for large-scale transaction datasets.

COVID-19 cases - Tableau

July 2025

https://github.com/Mann-crypt/COVID19-report

- Created an interactive Tableau dashboard analyzing COVID-19 cases, deaths, and recovery trends across states.
- Used line charts, filters, and map views to highlight daily spikes, wave patterns, and regional impact.
- Cleaned and structured raw data to ensure accurate visual insights for public understanding.

Deloitte Australia Data-Analytics

Job Simulation at Forage

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions
